

Name of the Agenda:

Aero.Next Portugal

Start Date:

01-10-2021

Leader of the Consortium:

EEA - EMPRESA DE ENGENHARIA AERONÁUTICA E AUTOMÓVEL, S.A.

End Date:

31-12-2025

Investment:

123.281.163,18€

Goals, activities and expected/ achieved results:

The Aero.Next Portugal Agenda aims to strengthen Portugal's position in the aeronautical value chain and consolidate the cluster associated with it through complete, complex and high added value products. To this end, it will ensure the dominance of Portugal throughout the design, development, industrialization and marketing phases, making the country a relevant decision center in aeronautics, reducing its dependence on the outside world and triggering strong drag effects on the national economy.

To this end, it brings together a wide range of entities with strong and complementary skills for the development of the aeronautical ecosystem, with a view to promoting innovation, knowledge of the market and the paradigms of Digital Transition and Climate Transition. Maximizes existing assets in the country and promotes investment in more than one NUTS2, highlighting the case of Alentejo, with positive impacts on territorial cohesion.

Beneficiary Entity:

DTx- Digital Transformation Colab

Investment (of the beneficiary):

2 225 381,60€
