The AzoresDIH (AzDIH) is a partnership of 13 organizations specialized in business digitalisation, providing infrastructure, resources, and knowledge for the digital transformation of companies and public institutions. The AzoresDIH is aligned with its regional RIS3 but seeks and prioritises collaboration with entities in other European countries. AzDIH was officially recognized as part of the Portuguese network of Digital Innovation Hubs (DIH) under the strategy Digital Portugal, and obtained the Seal of Excellence, being an EDIH, member of the European network under the Digital Europe strategy.

With a special focus on tourism and sustainability, green economy, and manufacturing sectors, the AzDIH will deliver a number of digitalisation-oriented services, as well as monitor the impact on the target groups, categorized in the domains of test before investing, support to find investments, training and digital skills, innovation ecosystem, and networking. It has set the following objectives:

- Act as a one-stop-shop and cornerstone mechanism for coordination of digitalisation and digital transformation in the regional industry (with particular attention to SMEs) and public institutions;
- Continuously update and build capacities on the necessary infrastructure, expertise, and resources to provide a complete set of services aligned with the digital needs;
- Engage with the Network of European Digital Innovation Hubs to deliver and receive improved capabilities in HPC, Artificial Intelligence, Cybersecurity, Advanced Digital Skills and to speed up the best use of digital technologies.
