

**PROJECT NAME:**

Be.Neutral - Zero carbon mobility cyber-physical products for cities around the world

**TOTAL INVESTMENT FOR THE AGENDA** | 221.376.867,92€

**DTX INVESTMENT** | 4.490.790,73€

**PACKAGE** | Green Agendas for Business Innovation Beneficiary

**ENTITY** | Digital Transformation CoLab - DTX

**START DATE** | October 1st 2021

**END DATE** | December 31st 2025

**TOTAL FINANCIAL SUPPORT FOR THE AGENDA** | 128.191.402,26€

**FINANCIAL SUPPORT FOR DTX** | 4.490.790,73€

**OBJECTIVES AND EXPECTED RESULTS:**

Be.Neutral aims to position Portugal as an exporter of cyber-physical carbon-neutral mobility products for cities worldwide. It was conceived based on the opportunity to develop, industrialize, and operate new mobility products and services (physical devices, connectivity, and data science platforms) with real-time emissions avoidance quantification capabilities to accelerate carbon neutrality by 2023.

The participation of the Digital Transformation CoLab - DTX aims at the development of PPS8 "Connectivity Infrastructure and Management Platforms" and PPS9 "New Generation of Connectivity Devices" related to WP2 "Infrastructure and Connectivity Devices Management." Additionally, it includes PPS14 "Light Vehicle BEN" related to WP6 "Light Vehicle BEN."
