

ACRONYM and PROJECT TITLE | INOV.AM – Innovation in Additive Manufacturing

CONSORTIUM LEADER | EROFIO - ENGENHARIA E FABRICAÇÃO DE MOLDES S.A.

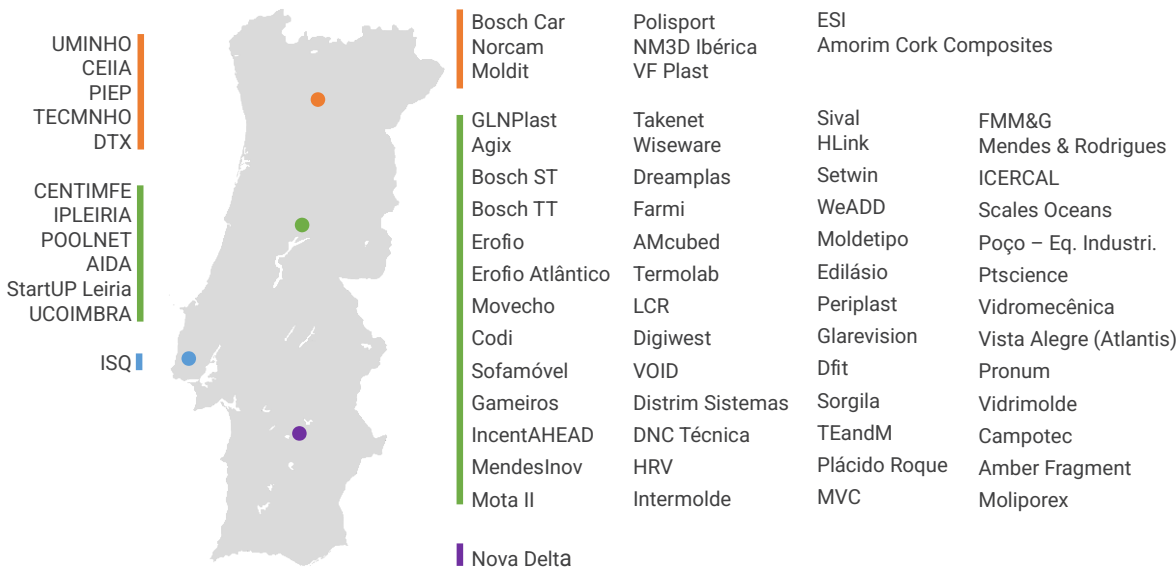

DESCRIPTION | INOV.AM arises from the emerging need to stimulate and innovate the Portuguese industry, in order to revolutionize and enhance Portugal's potential and competitiveness in the international market, within the scope of additive manufacturing. It aims to develop new materials, advanced manufacturing processes, post-production, advanced automation, control software, new products, and training and skills development of the human resources.
